Japanese Structural Design / Matsui Gengo

Final Review + Apéro

This series of focus works (Vertiefungsarbeiten) highlights the legacy of structural engineer Matsui Gengo (1920–1996), known for his collaborations with architects such as Kurokawa Kisho, Kikutake Kiyonori, Ito Toyo, and Ban Shigeru. The final review features poster presentations by students on their research topics.

Date: Friday, 30.05.2025
